

# SVHC Substance Declaration

EC Regulation No. 1907/2006 REACH

The undersigned **Piergiorgio Fornara**  
as **President**

of the firm **Fornara Spa**

based in **Via Resiga 40, Borgomanero (No)**

with reference to the EC Regulation No. 1907/2006 (REACH Regulation), and to the related Annex XIV and its subsequent amendments, being a downstream user,

## DECLARES

- To be aware of the Regulation in question.
- To ensure compliance with the Regulation in question.
- To have contacted their suppliers, to ensure the status of their materials with respect to the Regulations and that the pre-registration and registration requirements are met.
- To have reported to its suppliers the type of use of the products purchased by us as required by the ECHA guide which provides for the identification of the "Sector of use", the "Product category", the "Process category", the "Category of articles" and of the "Environmental release category".

## ALSO DECLARES

That in its brass articles, the chemicals listed in the table below and listed in Annex XIV of the REACH Regulation 1907/2006 amended on 16/01/2020, are present in quantities greater than 0.1% by weight:

| SUBSTANCE    | DATE OF INCLUSION  | CAS NUMBER | EINECN NUMBER | DANGER   |  |
|--------------|--|------------|---------------|--|--|
| Lead (Pb)    | 27/06/2018   | 7439-92-1  | 231-100-4     |  | Toxic for reproduction category 1 °<br>H360FD- can damage fertility.<br>It can harm the unborn child.<br>H362- may be harmful to breastfed infants |
| NOTES OF USE | The inclusion of lead in the SVCH list of substances does not change the conditions of use of the product. |            |               |  |  |

Finally, it should be noted that:

Products manufactured by **Fornara Spa** under the REACH Regulation:

- are defined as "ARTICLES" and not substances or preparations art. 3 (3).
- are not subject to the preparation of the safety data sheet art. 31.

We are providing notification on the ECHA portal and we will forward the SCIP numbers of our products as soon as they are in our possession.

To items made by Fornara Spa in the following materials:

- CW625N
- CC499K
- CW459K

the SCIP number will not be assigned as they are produced in quantities of less than 1 ton / year.

For any need, we inform you that responsible is
